

Cardiology Services

OUR AIM IS TO SUPPORT DOCTORS IN CLINICAL PRACTICE

ECGs, HOLTER AND AMBULATORY BLOOD PRESSURE MONITORING

- Specialist Cardiologists report on all ECGs and Holter monitors
- Urgent Holter monitor service available
- Convenient access to our service at more than 40 collection centres
- A full range of pathology testing for cardiology patients

Cardiology Services

Providing a Comprehensive Service including:

- ECGs
- Holter Monitors
- 24 Hr Ambulatory Blood Pressure Monitoring

ECG SERVICE

Appointment required

- The majority of our collection centres are equipped with ECG machines
- An appointment is generally required for an ECG at our centres, although we can accommodate urgent requests
- This is a Medicare rebatable test and we bulk bill for pensioners, health care card holders and at the practitioner's request

As a referring doctor, you may request us to:

- Perform and report the ECG (full ECG service)
- Perform the ECG and return the trace ("trace only ECG")
- Report on an ECG already performed by the doctor ("report only ECG")

HOLTER MONITOR SERVICE

Appointment required

Holter monitors for elective investigations are available at our collection centres by booking an appointment through our Patient Services Department on 8366 2088

- An urgent Holter monitor service is available on request
- The Holter result is issued as a full, typed report. The recording is first analysed by a Cardiac Technician, who edits the data to produce a comprehensive report including a 24 hour disclosure. The result is then reviewed by our Cardiologist who issues the final report
- This is a Medicare rebatable test and we bulk bill for pensioners, health care card holders and at the practitioners request

24 HOUR AMBULATORY BLOOD PRESSURE MONITOR SERVICE

Appointment required

- Ambulatory Blood Pressure Monitoring is available at more than 40 pathology collection centres
- An appointment is required for this service
- Accurate measurements are taken every half hour during the day and every hour during the night
- A Day/Night button allows for an accurate evaluation of Day/ Night phases as well as an exact documentation of the early morning blood pressure rise
- A graphical report is generated plotting blood pressure versus time
- At present, this service does not attract a Medicare rebate and patients will be billed privately
- Cost
 - » \$90 for non-concession patients
 - » \$45 for pensioners and health care card holder
