

Therapeutic Venesection Clinics

Clinpath Laboratories operates a well-established venesection service.

What our clinics can offer:

- Therapeutic venesections for specific conditions including haemochromatosis, polycythaemia, porphyria cutanea tarda and secondary iron overload disorders
- Venesections performed under the supervision of Dr Michael Speedy
- Monitoring of blood results and frequency of venesections at your request
- Assistance (if requested) with the management of conditions requiring venesections. We can advise on the treatment goals for the specific conditions and the appropriate frequency of venesections and related blood tests.
- All venesections and associated pathology are bulk-billed

Venesection clinics are held at the following patient centres:

Adelaide CBD	Level 2, Wakefield Clinic 270 Wakefield Street Monday/Tuesday/Friday: All day Wednesday/Thursday: AM only
Ingle Farm	4/15 Roopena Street Wednesday: PM only
Mount Barker	Shop A, 13 Gawler Street Thursday: PM only

Venesection referrals can be made on a Clinpath Laboratories request form and marked 'For the attention of Dr Speedy'.

Venesections are available by appointment only, phone 8366 2049 for bookings.

If you have any queries regarding venesections, please do not hesitate to contact Dr Michael Speedy on 8366 2087.
